Forms of application can be had at the treasury offices, at the national banks and more prominent private bankers all through the country. Many fears that had existence proving groundless, the market is recovering from the depression they caused, and improving prices and more active sales is the consequence. The New York Bulletin, of Friday, said: "On spots the position is pretty strong, and the tone more cheerful throughout. The movement of stock has not proven very liberal, and, in-deed, the demand came without the show of Thus far this week... remarkable or general anxiety among buyers, but holders have gained confidence on th foreign accounts and the position of contracts, and in all cases place a higher value on their supplies, of which the offering has been materially reduced. On quotations, 1/3c has been added, but the revised figures are below the rate at which most of the really desirable parcels are held. On special order there has been a little taken for export, though shippers in the majority of cases remain quiet, and the principal direct demand comes from spinners. For future delivery there has been more doing, and a higher, firmer market during the greater portion of the day. In a general way about the old influences are cited, the gradual exhaustion of supplies forming the main features, but an additional stimulus Total shipments to-day

has been found in the tenor of the cable advices. The report from Liverpool this morning came unexpectedly encouraging, and this opened the market 13@14 points over last evening, with some pretty free bids. Altogether, after the first advance, there was a pretty severe struggle between 'bulls' and ears,' but, as compared with yesterday, the former can show quite a gain, and generally talk confidently." The same paper, in its last weekly review, stated: "The general entures of the market have been much the ame as for the preceding week, values undergoing several fluctuations-some of them pretsharp-but the tendency being toward a ligher level during a greater portion of the time. The faith of operators for a rise finds base still in the statistical position, which, it s claimed, shows stronger points the more it is examined, and has been sufficient to attract a little outside element toward cotton as an article for speculative investment. The cable, too, has brought somewhat cheering advices, Liverpool making an advance. Our market, however, stood much above a parity of Liverpool, and effectually shut off demand from exporters, while the home distribution

was confined to the ordinary narrow channel of the immediate wants of spinners."

GENERAL TRADE.

Business during the week has been touched with a foretaste of summer quietude; the grocery stores have had some orders and the market shows little change; an inquiring letter has reached us about quotations; our own report and the general market list published by the merchants of the chamber of com-merce give a very wide list. It will be re-membered that at this season transactions are less numerous than during busier times; the live stock market is very quiet and the dullness causes quotations in some cases to be of Fruits and vegetables are in good demand for shipping. Eggs have been high, owing to stoppage of the railroads by storms, but the receipts are now increasing and prices will reach their usual level. Corn has been at 60c most of the week, but yesterday afternoon about three thousand sacks arrived and lower rates are looked for. Before the arrival "to arrive" was offered at 60c, but we heard of no takings. Oats are quiet; 25 sacks sold at 51c, and 100 sacks of Galena at 50c; only a moderate inquiry. Bran was very quiet, 40 sacks sold at \$19 50. The last sale of corn by an offered at \$15 c. Bran, \$1 15. Hay is inactive, with some demand for choice; rates were generally \$10 @16. Cornmeal was easier, with sales at \$2 90; at the opening \$2 95 was got in some instances; sales were about 600 barrels. Po-\$4; these were loose in wagon for shipment. see, \$4 25@4 50 a crate. Onions received quiet. little attention; fine Louisiana, \$6 a barrel. Green apples are in demand for shipment,

matoes—Louisiana, \$1 25 a box. Green corn, 200@25c a dozen. Egg plants, 40c a dozen. Eggs were plentiful and lower, and very dull; market opened at 15c, fell to 14 and 13c, with sales at 12½c and even 11½c; at the close 12½@13c was about the prevalent rate. Butter dull, and all but good fresh or choice western neglected; sales from 8 to 15c; choice up to 20c. Chickens were dull and lower, and \$1 50@2 50 were the extremes, few old here, of the close of the condition of hotness, and the only trouble about it is that it is impossible to say whether the next minute will be storm or sunshine.
